Company Profile & Product Catalogue

Essential Oils · Dehydrated Fruits & Vegetables
Traceable from farm to formulation

Navi Mumbai, India · www.suvicointl.com · +91-7045-788426

WHO WE ARE

Founded on transparency, built on trust

Suvico International is a premium Indian exporter of essential oils and dehydrated fruits & vegetables. Founded during the COVID-19 lockdown after our founder saw how opaque and contamination-prone global ingredient supply chains had become, Suvico exists to supply premium, sustainably sourced ingredients with genuine farm-to-formulation traceability - so quality is something we can prove, not just promise.

OUR PHILOSOPHY

Vasudhaiva Kutumbakam - The world is one family

We treat interconnectedness as a business principle: collective welfare, ethical sourcing, environmental stewardship and benefit that reaches every stakeholder, from farmer to formulator.

Parasparam Bhavayantah - Mutual cooperation

Progress is collaborative. We grow by celebrating the success of our partners, vendors and employees, built on transparency and trust.

VISION & MISSION

Vision: to become a globally trusted name in sustainable ingredient sourcing, where Indian agriculture meets world-class standards of quality and transparency.

Mission: to deliver traceable, compliant, consistently excellent essential oils and dehydrates, while raising the bar for ethical conduct across the supply chains we touch.

CREDENTIALS

Registered, certified & compliant

Suvico International is registered with / a member of India's principal export, food and fragrance authorities, and aligns to the standards demanded by international markets.
